

I am a former resident of Katy and I wanted to write to you in regards to David Temple. I have known David Temple since my arrival to Katy from Alief, TX in 1975. David had maturity issues from a very young age and his mother chose to hold him back a year. I can tell you that I have read every trial and appeal transcript and I was convinced in the very beginning of his guilt. David Temple's biggest problem would be his parents. They seemed to have an issue telling him "no". The end result of their actions created a self entitled, spoiled, out of control steroid monster of a man. I have countless stories of him treating classmates and members of the Katy community with total disregard. What I find unacceptable is the amount of time that David has spent outside of jail when he should have been inside of jail serving his sentence. I sincerely believe based on his past actions that he is a flight risk. At this point, he has nothing to lose. Please pass this message on to the Prosecutor's office.

Sincerely,  
xxxxxxx
